

# Geometry Notebook Evaluation Sheet (third 6-week grading period)

Name \_\_\_\_\_ Seat position \_\_\_\_\_ Date \_\_\_\_\_ Period \_\_\_\_\_

**Other group members names**

\_\_\_\_\_

## Homework/notes section

<b>chapter</b>	<b>ch 5</b>	<b>ch 6</b>	<b>ch 7</b>	<b>Two Group members sign-off</b>	
HW completed:	_____	_____	_____	(Initials) _____	(Initials) _____
total # of HW:	(6)	(7)	(7)	(points) _____	(points) _____
				(20)	(20)

A *complete definition* means a complete sentence (e.g. A hexagon is a polygon that has six sides) and a diagram that explains or illustrates the definition.

## Definition section

<b>chapter</b>	<b>ch 5</b>	<b>ch 6</b>	<b>ch 7</b>	<b>Two Group members sign-off</b>	
Definitions completed:	_____	_____	_____	(Initials) _____	(Initials) _____
total # of definitions:	(7)	(9)	(6)	(points) _____	(points) _____
				(22)	(22)

## Investigation section

<b>chapter</b>	<b>ch 5</b>	<b>ch 6</b>	<b>ch 7</b>	<b>Two Group members sign-off</b>	
Invest. completed:	_____	_____	_____	(Initials) _____	(Initials) _____
# of investigations:	(5)	(5)	(5)	(points) _____	(points) _____
				(15)	(15)

A *complete conjecture* means the conjecture **and** a diagram that explains or illustrates it.

## Conjecture section

<b>chapter</b>	<b>ch 5</b>	<b>ch 6</b>	<b>ch 7</b>	<b>Two Group members sign-off</b>	
Conject. completed:	_____	_____	_____	(Initials) _____	(Initials) _____
# of conjectures:	(12)	(23)	(14)	(points) _____	(points) _____
				(31)	(31)

## Essay section

Select a homework problem from chapter 6 and a homework problem from chapter 7 that you thought were difficult the first time you tried them but now you can solve them. Copy them down on the back of this sheet and show how to work them.

One problem: 3 pts, both problems: 8 pts (8 points) \_\_\_\_\_

Name of student whose notebook you evaluated \_\_\_\_\_ (4 points)

**Self evaluation: Total points for Notebook** \_\_\_\_\_ (100)

**Teacher's grade for Notebook** \_\_\_\_\_ (100)/grade
